New Oriental Announces Results for the Fourth Fiscal Quarter and Fiscal Year Ended May 31, 2015 and Declares a Special Cash Dividend

*Quarterly Net Revenues Increased by 14.4% Year-Over-Year
 Quarterly Student Enrollments Increased by 34.7% Year-Over-Year
 Fiscal Year Net Revenues Increased by 9.5% Year-Over-Year*

BEIJING, July 21, 2015 /PRNewswire/ — New Oriental Education and Technology Group Inc. (the “Company” or “New Oriental”) (NYSE: EDU), the largest provider of private educational services in China, today announced its unaudited financial results for the fourth fiscal quarter and fiscal year ended May 31, 2015.

Financial Highlights for the Fourth Fiscal Quarter Ended May 31, 2015

- Total net revenues increased by 14.4% year-over-year to US\$328.8 million for the fourth fiscal quarter of 2015. Total net revenues would have increased 16.2% if including US\$5.3 million of temporarily deferred revenue resulting from the Company’s customer loyalty programs^[1].
 - Income from operations decreased by 26.9% year-over-year to US\$22.5 million for the fourth fiscal quarter of 2015. Income from operations would have been approximately US\$27.8 million if not for the accounting effects of the Company’s customer loyalty programs.
 - Net income attributable to New Oriental decreased by 17.9% year-over-year to US\$35.2 million for the fourth fiscal quarter of 2015.
- [1] Beginning in the second quarter of fiscal year 2015, the Company started implementing customer loyalty programs to encourage repeat business. Under the new programs, when customers purchase academic subjects tutoring and test preparation courses, they will be able to earn points equivalent to 2-5% of their total spending, which can be used to pay for future tuition fees over the next two years. The Company uses the deferred revenue method to recognize revenues for customer loyalty programs under U.S. GAAP. The portion of revenues associated with the issued points is deferred until the points are redeemed or expired. After six months of implementing the programs, the Company decided to narrow the scope of the loyalty programs to include only the K-12 business for selected cities starting in March 2015.

Operating Highlights for the Fourth Fiscal Quarter Ended May 31, 2015

- Total student enrollments in academic subjects tutoring and test preparation courses increased 34.7% to 783,400 for the fourth fiscal quarter of 2015.
- The total number of schools and learning centers was 724 as of May 31, 2015, an increase of 21 compared to 703 as of May 31, 2014, and an increase of 2 compared to 722 as of February 28, 2015. New Oriental added a net of 2 learning centers in the quarter. The total number of schools increased to 60 and the total number of learning centers to 664 as of May 31, 2015.

Michael Minhong Yu, New Oriental's Chairman and Chief Executive Officer, commented, "We are pleased to conclude the final quarter of fiscal 2015 with a continued and steady recovery in top line growth as well as student enrollments. Fourth quarter revenue growth was a healthy 14.4% year-over-year and would have been as high as 16.2% if including temporarily deferred revenue resulting from our customer loyalty programs launched earlier in the year. Student enrollments were up almost 35% in the quarter, driven by the continued momentum of our K-12 after-school tutoring business which had year-over-year enrollment growth of approximately 57%. This key business segment recorded gross revenue growth of approximately 21% in the quarter, contributing nearly half of the total revenues. Additionally, U-Can middle and high school all-subjects after-school tutoring business recorded gross revenue growth of approximately 27%. Moreover, our newly revamped POP Kids program has been gaining significant momentum, with enrollments advancing 48% year-over-year and gross revenue growing approximately 6% in the quarter. The POP Kids program is in most of our existing cities and given very positive market feedback. We expect this new exciting program to achieve continued strong performance."

Mr. Yu continued, "While we faced both challenges and opportunities in fiscal 2015, it was a fruitful year overall and we made a great deal of progress in driving forward our current growth strategy. Most importantly, we launched our "Optimize the Market" strategy which is allowing us to focus on maintaining a balance between top line and bottom line growth as well as building out our online and offline integrated education ecosystem. During the year, we added a net of 21 learning centers and expanded certain existing learning centers by adding a total of approximately 11,000 square meters of additional classroom area. Furthermore, we made solid progress in improving the core of our online system, the O2O integration. Our "U-Can Visible Progress Teaching" system was launched in the second quarter and is now being used in more than 40 cities. Despite the negative impact from the uncertainty around the Gaokao reform at the beginning of fiscal 2015, our U-Can program achieved more than 22% revenue growth for the year. We have also seen encouraging results from investments in our online platform and educational products. Our pure online education platform, Koolearn.com, recorded revenue growth of approximately 40%, with registered users up by more than 110% and paid users up by over 60%. The evolution of our integrated ecosystem is going well."

Stephen Zhihui Yang, New Oriental's Chief Financial Officer, commented, "As we move forward into fiscal 2016, we will continue to implement the "Optimize the Market" strategy in order to further build on the improved foundation we have put in place. In particular, we aim to enter 3 to 4 new cities and open 30 to 40 new learning centers for our K-12 after-school tutoring business in existing cities that are driving both revenue growth and margin expansion. At the same time, we will continue to invest in the build out of our online and offline integrated education ecosystem, leveraging our new and more advanced product offerings and services and expanding the reach of our O2O products into all our key business lines. Lastly, we will continue to focus on enforcing cost control and improving operational efficiency across the organization. We believe that all of these efforts will bring higher growth and sustainable profitability for the Company as well as enhanced value for our shareholders over the long term."

Declaration of Special Cash Dividend

New Oriental's board of directors has declared a special cash dividend in the amount of US\$0.4 per ADS/common share. The cash dividend will be paid on October 7, 2015 to shareholders of record at the close of business on September 4, 2015. The ex-dividend date will be October 5, 2015. The aggregate amount of cash dividends to be paid is approximately US\$63 million, which will be funded by surplus cash on the Company's balance sheet.

About Non-GAAP Financial Measures

To supplement New Oriental’s consolidated financial results presented in accordance with GAAP, New Oriental uses the following measures defined as non-GAAP financial measures by the SEC: net income excluding share-based compensation expenses, operating income excluding share-based compensation expenses, operating costs and expenses excluding share-based compensation expenses, general and administrative expenses excluding share-based compensation expenses, operating margin excluding share-based compensation expenses, and basic and diluted net income per ADS and per share excluding share-based compensation expenses. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the tables captioned “Reconciliations of non-GAAP measures to the most comparable GAAP measures” set forth at the end of this release.

New Oriental believes that these non-GAAP financial measures provide meaningful supplemental information regarding its performance and liquidity by excluding share-based compensation expenses that may not be indicative of its operating performance from a cash perspective. New Oriental believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing its performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management’s internal comparisons to New Oriental’s historical performance and liquidity. New Oriental computes its non-GAAP financial measures using the same consistent method from quarter to quarter. New Oriental believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. A limitation of using these non-GAAP measures is that they exclude share-based compensation charge that has been and will continue to be for the foreseeable future a significant recurring expense in our business. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables have more details on the reconciliations between GAAP financial measures that are most directly comparable to non-GAAP financial measures.
