Michael Yu, New Oriental's Chairman and Chief Executive Officer, commented, "We are pleased to report solid results for the third fiscal quarter with sustained top-line growth of 28.6%, which was well above the guidance range of 22% to 27% growth, as well as stronger than expected operating income growth of 35.9%, and profit growth of 25% year-over-year. Further, during the quarter we achieved notable progress in a number of important areas. For instance, we experienced encouraging improvements at our two largest schools in Beijing and Shanghai. As a result of an effective restructuring program over the past few months, these two schools recorded a combined increase in revenues of 17% and a combined increase in net income of 9% year-over-year. Moreover, we are encouraged by the year-on-year improvement in overall operating margin this quarter, following margin compression in the previous five quarters when we focused on rapid expansion of our learning center network. During the period, we continued to transition to our 'Harvest the Market' strategy and, as a result, recorded GAAP operating margin of 10.8%, compared to 10.2% in the same period a year ago."

Mr. Yu continued, "At the core of our 'Harvest the Market' strategy is an emphasis on improving operational efficiency and increasing profitability. We imposed strict top-down control over learning center openings and closed some underperforming learning centers in a few cities. We closed a total of 22 learning centers in the quarter and opened 11 learning centers in fast growing markets. We also reduced our total headcount by about 1,200 during the quarter. The 'Harvest the Market' strategy and accompanying operating discipline translated into healthy operating margin expansion in the third quarter and we expect continued improvement in operational efficiency in the coming quarters as we increase the utilization and class offerings in our existing facilities. While we have slowed our pace of expansion considerably, given the significant potential of the Chinese market, our strong presence in the key markets, and our outstanding brand advantage nationwide, we are confident that we can continue to maintain healthy top-line growth."

Louis T. Hsieh, New Oriental's President and Chief Financial Officer, commented, "The slight year-over-year decrease in enrollments this quarter was largely due to the closing of approximately 30 underperforming learning centers in the past two quarters and the late timing of Chinese New Year ("CNY") in 2013. CNY occurred on February 10 this year compared to January 23 last year, which meant that the winter holiday for most public schools fell approximately 10 days later in 2013 than in 2012. This shift, in turn, delayed a significant portion of student enrollment for our Spring semester classes, pushing sign-up from February to March this year. We have seen that spillover reflected in our early results for the fourth fiscal quarter. In the first six weeks of our fourth quarter, we recorded a noticeable 14% increase in enrollments year-over-year and a 34% increase year-over-year in cash receipts, or cash collected in advance for enrollments."

Mr. Hsieh continued, "To the best of our knowledge, as of the date of this earnings release we have not experienced a material negative impact on enrollments or revenues from the spread of the avian virus H7N9 in China. We are hopeful that so long as the H7N9 outbreak can be

contained, and there are no documented instances of human-to-human transmission, the Chinese government will not close education facilities or ban large gatherings of people."

## **Recent Developments - Adoption of Share Repurchase Program**

On April 23, 2013, New Oriental's board of directors authorized the repurchase of up to US\$50 million of the Company's shares during the period from April 29, 2013, through July 31, 2013.

This share repurchase program authorizes the Company to purchase its American Depositary Shares ("ADSs") or common shares from time to time on the open market at prevailing market prices, in negotiated transactions off the market, in block trades, pursuant to a 10b5-1 plan or other legally permissible ways in accordance with applicable rules and regulations. The timing and extent of any purchases will depend upon market conditions, the trading price of ADSs and other factors.

New Oriental expects to implement this share repurchase program in a manner consistent with market conditions and the interests of the shareholders. New Oriental's board of directors will review the share repurchase program periodically and may authorize adjustment of its terms and size accordingly. New Oriental plans to fund any share repurchases made under this program from the Company's available cash balance.

allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making.
